

Prater Limited recognises the importance of protecting the environment. The Board of Directors are committed to ensuring that the systems and resources are in place to reduce and mitigate impacts upon the environment and allow the company to successfully achieve environmental objectives.

We operate a comprehensive and effective management system, certified to BS ISO 14001:2007, which is monitored and measured to ensure its continued relevance and accuracy. We want to ensure we are delivering the very highest environment standard, and challenging the expectations of our customers.

Prater will adhere to the following key principles:

1. The Board of Directors will foster a culture of continual improvement by setting, measuring and periodically reviewing environmental objectives which are communicated throughout the business.
2. Clearly understand all client environmental requirements.
3. The company is committed to identifying its significant aspects and impacts and taking measures to reduce their impact upon the environment.
4. Clearly understand legal requirements and ensuring processes are in place to ensure these are monitored and complied with.
5. Ensure processes are in place to protect the environment, including the prevention of pollution, and the reduction of waste, odour and noise.
6. Provide the channels through which our people can report any potential defect, poor practice or defective materials that may adversely impact environmentally.
7. Undertake regular environment audits of our projects and business functions to monitor and measure the environmental performance of the business.
8. Work in partnership with suppliers and manufacturers, clients, architects, engineers and other experts to improve standards in the industry.
9. Encourage staff and operatives to take an active part in developing and improving the management system. A company-wide commitment to the environment will lead to improvements that will benefit the business, its employees, and its customers.
